

Program at a Glance of the International Neuropsychological Society 2018 Mid-Year Meeting

Day	Time	Forum Hall	South Hall 2A	South Hall 2B	North Hall
WEDNESDAY July 18, 2018	09:00–12:00		CE Workshop Melissa Lamar: <i>From neurons to neighborhoods: Bridging science and humanity in search for modifiable markers of aging and dementia</i>	CE Workshop Amy Heffelfinger: <i>Preschool neuropsychological development, assessment, and cultural considerations</i>	CE Workshop Ivan Rektor & Bruce Hermann: <i>Advances in epilepsy treatment and understanding of neurobehavioral comorbidities</i>
	12:00–13:00	LUNCH BREAK			
	13:00–14:00	PLENARY KEYNOTE ADDRESS John-Dylan Haynes: <i>What does neuroscience tell us about free will?</i>			
	14:10–15:40	SYMPOSIUM 1 Barbara A Wilson (Chair): <i>Rare and unusual disorders: Presentation and progress over time</i>	SYMPOSIUM 2 (Sponsored by the Cognition and Cancer Task Force, CCTF) Sanne B Schagen, Jeffrey S Wefel (Co-chairs): <i>Cognitive effects of cancer and cancer treatment</i>	PAPER SESSION 1 Executive functioning: <i>Interface with memory and self-regulation</i>	PAPER SESSION 2 <i>Behavioral and compensation strategies: Toward improving cognitive functioning among older adults with and without dementia</i>
	15:40–16:00	AFTERNOON COFFEE BREAK			
	16:00–17:00	PRESIDENTIAL ADDRESS Keith Yeates: <i>What does the science of childhood brain disorders teach us about the evolution of the human social brain?</i>			
	17:00–18:00	WELCOME CEREMONY			
18:00–19:00	WELCOME RECEPTION				
THURSDAY July 19, 2018	07:40–08:35	PAPER SESSION 3 <i>Subjective cognitive complaints among healthy older adults: Neuroimaging and neuropsychiatric correlates</i>	PAPER SESSION 4 <i>Multiple sclerosis</i>	PAPER SESSION 5 <i>Cognition in the context of serious mental illness</i>	PAPER SESSION 6 <i>When low scores are good and high scores are bad: Minding the base rates in diagnostic decision making</i>
	08:45–10:15	PAPER SESSION 7 <i>Mediators and moderators of cognitive decline with increasing age</i>	PAPER SESSION 8 <i>Pediatric TBI</i>	SYMPOSIUM 3 Alena Javůrková, Jana Amlerová (Co-chairs): <i>Emotion and cognition in epilepsy</i>	SYMPOSIUM 4 (Sponsored by the Czech and Moravian Psychological Society, CMPS) Tomas Nikolai, Ondrej Bezdíček (Co-chairs): <i>Adaptation of neuropsychology instruments from a cross-cultural perspective</i>
	10:15–10:30	MORNING COFFEE BREAK			
	10:30–12:00	PAPER SESSION 9 <i>Postacute and chronic sequelae of mTBI: What do we know and what do we believe?</i>	SYMPOSIUM 5 Renerus (Rene) J Stolwyk (Chair): <i>Exploring the use of telehealth to improve patient access to effective neuropsychological assessment and rehabilitation services</i>	SYMPOSIUM 6 (Sponsored by the College of Clinical Neuropsychology, CCN) Fiona Kumfor (Chair): <i>Challenging assumptions: Behaviour, cognition and neuroimaging in non-Alzheimer's dementia syndromes</i>	SYMPOSIUM 7 David Tulsy (Chair): <i>Using the NIH Toolbox Cognition Battery in individuals with acquired brain injury and in older adults</i>
	12:00–13:00	LUNCH BREAK			
	13:00–14:00	PLENARY KEYNOTE ADDRESS Kathleen Welsh-Bohmer: <i>Alzheimer's Disease & Treatment: Time for a New Approach</i>			
	14:10–15:40	SYMPOSIUM 8 (Sponsored by the Federation of European Societies of Neuropsychology, FESN) Roy P.C. Kessels (Chair): <i>Pathological ageing: from subjective cognitive decline to dementia</i>	PAPER SESSION 10 <i>Innovative technologies: Toward improving patients' lives</i>	SYMPOSIUM 9 Barbara A Wilson (Chair): <i>The Locked-In Syndrome: Some recent reflections and some challenges</i>	SYMPOSIUM 10 Unai Diaz-Orueta, David J. Libon (Co-chairs): <i>Process-based approach to neuropsychological assessment: from screening tools to comprehensive evaluation</i>
	15:40–16:00	AFTERNOON COFFEE BREAK			
	16:00–17:00	PLENARY KEYNOTE ADDRESS Stephanie Clarke: <i>Impact of cognitive science on neurorehabilitation</i>			
	17:00–17:45	AWARDS CEREMONY			
17:45–18:30	PLENARY KEYNOTE ADDRESS Remembering Anne-Lise Christensen (TBD)				
20:00–22:00	MEETING DINNER				
FRIDAY July 20, 2018	07:40–08:35	PAPER SESSION 11 <i>Cognitive rehabilitation: The current state of the science</i>	PAPER SESSION 12 <i>Functional imaging: Advances and challenges</i>	PAPER SESSION 13 <i>Neuropsychological challenges faced by children and teens in developing countries</i>	PAPER SESSION 14 <i>Bi- and multi-lingualism: Is there a cognitive advantage?</i>
	08:45–10:15	SYMPOSIUM 11 (Sponsored by the Australian Society for the Study of Brain Impairment, ASSBI) Skye McDonald (Chair): <i>Moving ahead to improve psychosocial outcomes after traumatic brain injury</i>	PAPER SESSION 15 <i>Differential neurocognitive and neuroimaging profiles of AD, DLB, and FTD variants</i>	Invited SYMPOSIUM 12 Ted Judd (Chair): <i>Addressing global neuropsychological disability</i>	PAPER SESSION 16 <i>Learning and attentional disorders in children and adults</i>
	10:15–10:30	MORNING COFFEE BREAK			
	10:30–12:00	SYMPOSIUM 13 (Sponsored by the INS Student Liaison Committee) John DeLuca (Chair): <i>New Approaches to Neurorehabilitation</i>	SYMPOSIUM 14 Constance Vissers (Chair): <i>Neuropsychology of developmental language disorder: a gateway to tailored assessment and treatment?</i>	SYMPOSIUM 15 (Sponsored by the Asociación Latinoamericana de Neuropsicología, ALAN) Mauricio A García-Barrera (Chair): <i>Showcasing Latino American neuropsychological research with global impact</i>	SYMPOSIUM 16 Emilia Łojek (Chair): <i>Current issues in the neuropsychology of HIV/AIDS</i>
	12:00–13:00	LUNCH BREAK			
	13:00–13:55	PAPER SESSION 17 <i>Neuromodulation and neurofeedback: Rehabilitation methods of the future</i>	PAPER SESSION 18 <i>Cognition in the context of serious medical illness</i>	Early and Mid-career Award Winner Presentations	PAPER SESSION 19 <i>Applying advanced statistical approaches toward improved diagnostic decision making</i>
	13:55–14:10	AFTERNOON COFFEE BREAK			
	14:10–15:40	SYMPOSIUM 17 Robin Morris, Jessica Fish (Co-chairs): <i>The future transformation of clinical neuropsychology: conceptual, practical and ethical issues</i>	PAPER SESSION 20 <i>Emotional processing in TBI, FTD, and MCI</i>	SYMPOSIUM 18 (Sponsored by the Sociedad Latinoamericana de Neuropsicología, SLAN) Alberto L Fernandez, Aldo R Ferreres (Co-chairs): <i>Current Topics of Research in Latin American Neuropsychology: A Sampler</i>	WORKSHOP (Sponsored by the INS Student Liaison Committee) Josef Vymazal: <i>Imaging techniques in neuropsychology</i>
	15:40–16:00	BREAK			
	16:00–17:00	BIRCH LECTURE Tomas Paus: <i>Population neuroscience of the developing brain</i>			
17:00–18:00	CLOSING CEREMONY				
18:00	Break out touring of Prague
